Rolex-Inspired Store — Color Palette

Project color reference: HEX codes, usage, and design purpose

1. Main Colors

Color	HEX Code	Where it is used	Why we use it
Black	**#111111**	Header and Footer	Creates a luxurious, elegant foundation.
Dark Green	**#006039**	Hero section and warehouse buttons	Connects the design to Rolex-inspired green tones.
Gold	**#C8A96B**	Logo details, borders, and button accents	Adds a refined luxury highlight.
Warm Off-White	**#F8F7F2**	Light section backgrounds, especially products	Keeps the page soft and helps watch images stand out.
	#1C1C1C	Text and headings on light backgrounds	Provides strong readability.
White	**#FFFFFF**	Text on dark backgrounds and card details	Creates clear contrast and improves readability.

2. Suggested Color Distribution

Website section	Main color	Accent color
Header	Black — #111111	Gold — #C8A96B
Hero Section	Dark Green — #006039	White — #FFFFFF / Gold — #C8A96B
Warehouse Buttons	Dark Green — #006039	Gold — #C8A96B
Featured Products	Warm Off-White — #F8F7F2	Near Black — #1C1C1C
Product Cards	White — #FFFFFF	Near Black — #1C1C1C / Gold — #C8A96B
Footer	Black — #111111	White — #FFFFFF / Gold — #C8A96B

Design tip: Use black for the main structure, green for the brand identity and important buttons, gold for small highlights, and warm off-white for product sections. Avoid using gold everywhere so the page stays balanced and elegant.
